

PIVOT STYLE AUGERS

The PIVOT AUGER has a bottom pivot pin & pan style hopper design.

The advantage of this hopper design is high ground clearance.

Optional adaptor brackets for boxes with straight door side.

Available in 6" dia. x 12', 14' & 15' length.

The auger is 10½" lower than the door when in transport.

The PIVOT AUGER's design allows the spout to remain pointing downward as the auger is moved from side to side, allowing for proper flow.

The optional wing extension kit for the pivot style hopper fits doors up to 60" wide.
